MU CONSERVATION BIOLOGY GRADUATE FELLOWSHIPS

Through the generous support of the MU Graduate School, the Conservation Biology Program will offer three \$3000 Graduate Fellowships for 2009. Appropriate uses of these funds include student or technician salary (including time spent fulfilling conservation biology internship), research equipment and supplies, conference travel, and other needs that will facilitate the student's research, internship activities and professional development.

Priority will go to graduate students who have applied for or are in the process of applying for the Conservation Biology Certificate. Previous fellowship recipient are eligible to apply. Fellowship recipients will be required to submit a brief report describing outcomes of the fellowship as well as present a seminar to the Conservation Biology reading group in December.

Applications should include the following:

- 1 A brief description of the research project. Please include an abstract, objectives, methods, and expected results. Do not exceed 5 double-spaced pages.
- 2 A short summary of how the fellowship money will be used and a statement of the student's status with regard to the certificate program.

Email applications by **Monday April 6, 2009** to Rose-Marie Muzika, Department of Forestry, 203 ABNR (muzika@missouri.edu). If you have questions, email muzika@missouri.edu or phone 573-882-8835.
